The Town of Grand Lake upholds the Six Pillars of Character:
Citizenship, Trustworthiness, Respect, Responsibility, Fairness and Caring

From the Manager's Desk

John Crone, Town Manager

- **Public Lands Plan** - The consultants are finalizing our Public Lands plan. We hope to present the final report to the Board in the very near future. The next step will be prioritizing actions after hosting a few Town meetings.
- **Town Dock** - We are making progress on installing the new Town docks. Public Works has made sure that there are always some sections open for boaters. We expect the work to be finished this week. It is identical to our current dock. We intend on utilizing the undamaged sections of our old dock to expand the boat ramp and to replace the old docks at the Headwaters Marina.
- **GL Adaptive Management (GLAM)** - We are about to start the annual implementation of the GLAM system to monitor Grand Lake's water clarity. Thank you to the Grand County Water Information Network (GCWIN) who provides the field teams who collect water samples and produce weekly reports. Learn more about their work at www.gcwin.org.
- **Employee Parking** - There has been some concern about shop employees parking in front of businesses on Grand Ave. I want to clear up some misconceptions:
 - 1. The Town allows 72-hour parking unless otherwise posted. We cannot differentiate between employees and visitors. Everyone is treated equally.
 - 2. Many businesses paid fees in lieu of providing parking spaces. These fees do not give ownership of any parking spaces. These fees are charged because the development did not provide the required parking.
 - 3. We strongly encourage all business owners and employees to park their vehicles on Park Avenue rather than on Grand Avenue to leave those spaces open for customers.
